

ARABIC 211-2

This is the second quarter of the third-year Arabic sequence. During this quarter, we will navigate through celebration norms and how people prepare for the most important holiday season in the Arab world for Muslims and Christians. We will learn about holidays for Copts and “Amazigh”. We will also learn about the issues of media and journalism in the Middle East. Our work will be mainly studying chapters 8 and 9 of “Alkitaab” Part II. It will be communicative based with role plays, presentations, interviews, and discussions.
