

HEBREW 111-2

Hebrew 111-2 builds on material learned in the first quarter. After finishing all seven units in the fall quarter, we will begin new lessons: we will learn the impersonal form widely used in everyday Hebrew, we will be introduced to the adjectives in Hebrew, and we will get to know more questions words, more numbers, and the direct object, a unique form in Hebrew. The new material will be integrated into short texts and lively conversations which are part of the wider context of Israeli culture. As always, students will have ample opportunities to practice and expand all skills.
