

TURKISH 121-2

Turkish 121-2 is taught in the Winter Quarter of second-year Turkish. The course builds on material learned in the first quarter by introducing additional grammar and sentence structures, by presenting new vocabulary, and by providing students ample opportunities to practice and expand all skills. We will continue to use texts and audio centered around topics in Elementary Turkish II as well as work with additional printed audio and video material provided by the instructor. The course covers units 24-30 in Elementary Turkish II.
